

PINMAR S.L, in order to have directives for its System of Environmental Management, **has developed and published** its **Environmental Policy**, approved by the board of directors.

In addition, PINMAR S.L. considers it a duty to make its activity of yacht refinishing and selling marine products for yacht maintenance compatible with environmental requirements and the safety and health of PINMAR's staff.

Below, PINMAR S.L. describes the objectives related to the environmental policy of the company:

Commitment to conform to the prevailing environmental legislation applicable to the activity of the company PINMAR S.L. and to other voluntary actions related to the environmental requirements adopted by the company.

To respect and to protect the environment as one of the basic management objectives of PINMAR's activity.

To prevent general environmental contamination and particularly atmospheric contamination associated with the activity of PINMAR S.L. by reducing chemical emissions and establishing control, monitoring and correction mechanisms.

To establish objectives and goals of environmental protection commensurate with the commitment of continuous improvement.

To encourage clients as well as staff to respect and preserve the environment.

To improve awareness of the personnel of the company by means of formation programmes focussed on the importance of the correct development of PINMAR's activities

To spread this environmental policy to PINMAR's employees, clients and suppliers, as well as to other interested parties in English and Spanish

Remy Millott
